

Downloading OpenRefine

1. Download OpenRefine from the following website:

<http://openrefine.org/download.html>

Please use 3.5.2, the latest stable release of OpenRefine 3.5, released on January 26, 2022. Please [backup your workspace directory](#) before installing and report any problems that you encounter. A change log is provided on [the release page](#).

- [Windows kit](#), This requires Java to be installed on your computer. Download, unzip, and double-click on *openrefine.exe* or *refine.bat* if the former does not work.
- [Windows kit with embedded Java](#), includes [OpenJDK Java](#), available under the [GPLv2+CE](#) license. Download, unzip, and double-click on *openrefine.exe* or *refine.bat* if the former does not work.
- [Mac kit](#), Download, open, drag icon into the Applications folder and double click on it. You do not need to install Java separately.
- [Linux kit](#), Download, extract, then type `./refine` to start. This requires Java to be installed on your computer.

Note: OpenRefine has issues with Firefox and will not work with Internet Explorer.
